ENGINEERED WITH 8 UNIQUE COMPONENTS AND MORE THAN 11 KEY PRODUCT FEATURES

CAM BUCKLE

- Easy, one-hand adjustment/release allows simultaneous adjustment of shoulder straps
- Promotes proper snug fit; will not slip or misadjust
- Constructed of high-tech polymer, lightweight aluminum and stainless steel materials that resist rust/corrosion
- Independent adjustment of upper and lower torso to accommodate seasonal clothing

WEB FINIALS

- Clip-on design safely organises webbing after proper adjustment
- Constructed of durable, high-impact resistant polymer
- Provides positive gripping surface for easy web adjustment

SELF-CONTAINED LABEL PACK

- Integrated pack encapsulates labels minimizing damage and loss
- Conveniently positioned on the chest for easy access
- Durable, polymer construction for extended service life
- Integrated and oversized pull-free lanyard rings

INTEGRATED ACCESSORY SYSTEM

- Modular attachment design provides connection points for tools & accessories
- Attach/remove accessories for greater comfort and convenience
- Designed to distribute the weight of accessories across the hips and shoulders for comfort and mobility
- Optional universal attachment clips available

AVAILABLE WEBBING OPTIONS

CUSTOM IDENTIFICATION

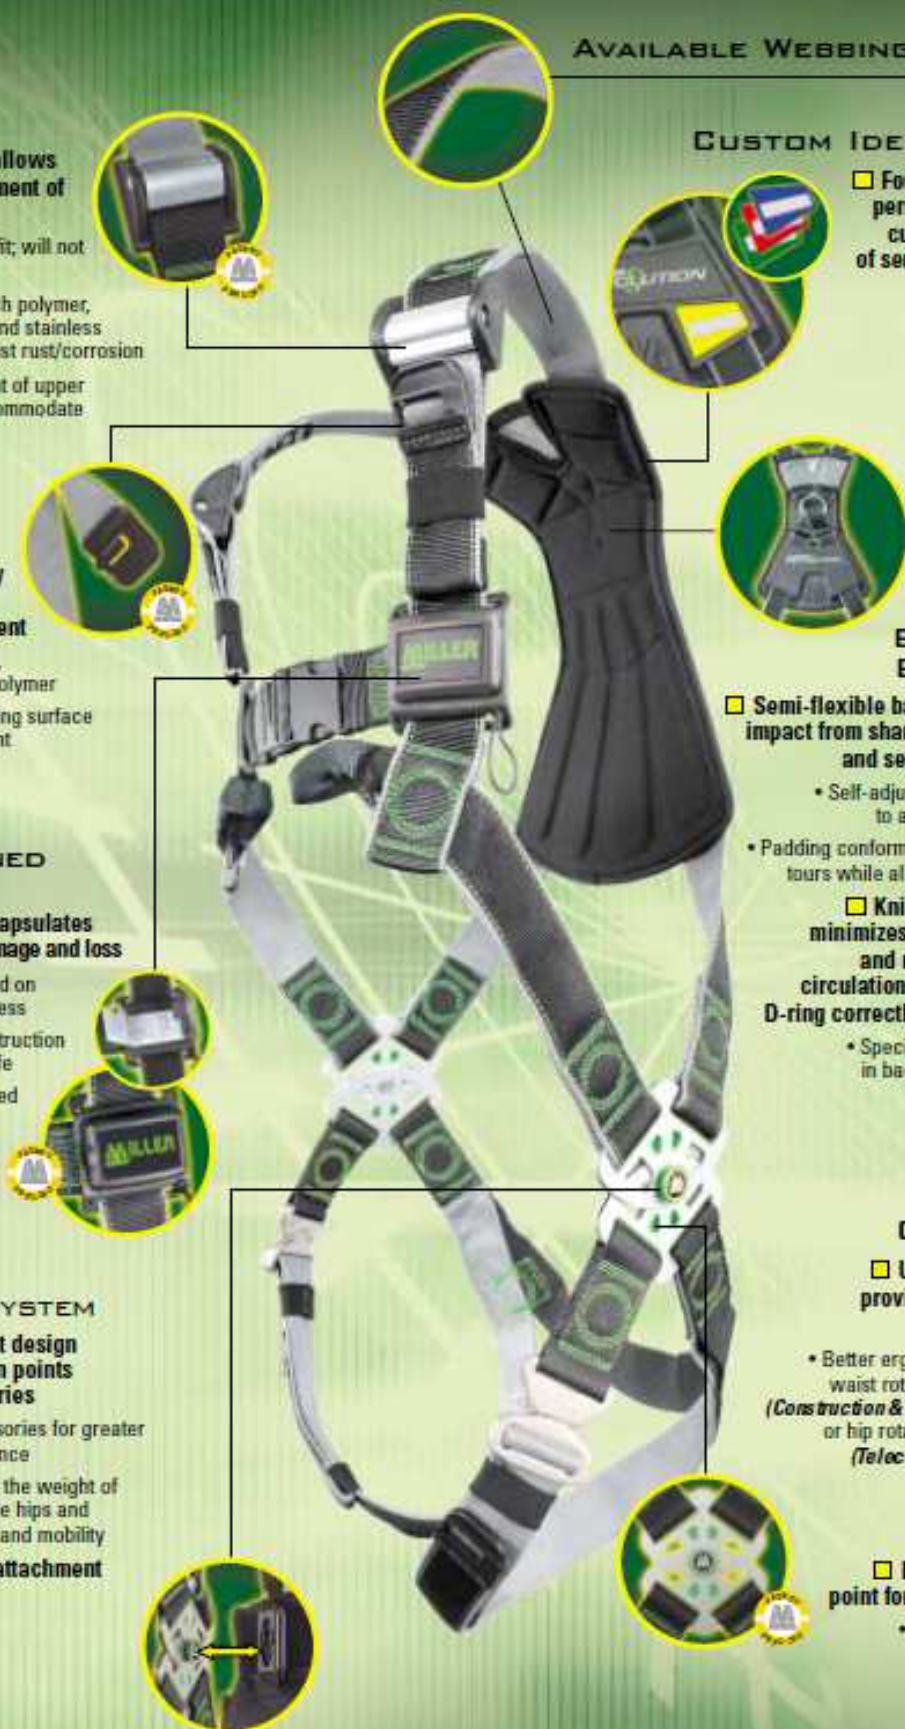

- Four brightly-coloured, permanent labels allow customization for date of service, specific trade, sub-contractor, etc. A write-in window allows space for individual names or other information.

ERGOARMOR™ BACK SHIELD

- Semi-flexible back shield minimizes impact from sharp/ heavy snap hooks and self-retracting lifelines
- Self-adjusting channels conform to a variety of body shapes
- Padding conforms to unlimited back contours while allowing superior air flow
- Knitted mesh membrane minimizes moisture absorption and maintains optimal air circulation; helps position back D-ring correctly for 95% of workers
- Specially-designed recesses in back shield accommodate custom identification

PIVOTLINK™ CONNECTION

- Unique rotary design provides greater comfort in bending/mobility
- Better ergonomic fit with unique waist rotation point for bending (*Construction & Maintenance models*) or hip rotation point for climbing (*Telecom & Utilities models*)
- Independent adjustment of upper and lower torso
- Provides attachment point for tools / accessories
- Lightweight aluminum and stainless steel construction resists rust/corrosion

A HARNESS FOR EACH APPLICATION

MILLER REVOLUTION CONSTRUCTION AND MAINTENANCE HARNESSES

With more than 26 million workers depending either directly or indirectly on the European Construction Industry, the robust Miller Revolution harnesses are ideal for scaffolding, steel erection, tower building and maintenance thanks to the unique Revolution technology and a multitude of key features.

The PivotLink™ connections are located at waist level for a better ergonomic fit when bending or squatting :

Key features include :

- Dorsal D-ring and front anchorage loops
- PivotLink™ connections at waist level
- Integrated accessory system
- Cam buckle adjustment and web finials
- Self contained label pack
- Standard or quick-fixing buckles

R1

MILLER REVOLUTION BASIC

The heavy-duty harness for unrivalled comfort and freedom of movement

- With standard fixing buckles

R2

MILLER REVOLUTION COMFORT

A quick-fitting harness with protective back shield

- Quick-fixing buckles for ease-of-fit
- ErgoArmor™ Back Shield for added protection

R3

MILLER REVOLUTION PREMIUM

- Quick-fixing buckles for ease-of-fit
- ErgoArmor™ Back Shield for added protection
- Work positioning belt

AVAILABLE WEBBING OPTIONS

DualTech™ Webbing

■ Donning made easy with two-sided, contrasting colour webbing and textures

- Webbing engineered with shape retention memory for a more comfortable fit
- Unique circular tack provides greater strength, and contrasting colours make inspection easier

DuraFlex® Webbing

- Patented, elastomer webbing specially formulated to stretch with the user's movements so there is no bunching or binding.
- Promotes 100% wear time.
